*Meaning of tolerance (DECLARATION OF PRINCIPLES ON TOLERANCE, 1995;
1.1 Tolerance is respect, acceptance and appreciation of the rich diversity of our world's cultures, our forms of expression and ways of being human. It is fostered by knowledge, openness, communication and freedom of thought, conscience and belief. Tolerance is harmony in difference. It is not only a moral duty, it is also a political and legal requirement. Tolerance, the virtue that makes peace possible, contributes to the replacement of the culture of war by a culture of peace.*

1.2 Tolerance is not concession, condescension or indulgence. Tolerance is, above all, an active attitude prompted by recognition of the universal human rights and fundamental freedoms of others. Tolerance is to be exercised by individuals, groups and States.

1.3 Tolerance is the responsibility that upholds human rights, pluralism (including cultural pluralism), democracy and the rule of law. It involves the rejection of dogmatism and absolutism and affirms the standards set out in international human rights instruments.http://www.unesco.org/webworld/peace_library/UNESCO/HRIGHTS/124-129.HTM

To avoid elements of social aspects formed by the empires

· "I have nothing against Bishop Hermogenes. I consider him honest, truthful arch-priest and a straightforward man, capable firmly and fearlessly defend the truth and steadfast in the service of truth and the dignity of the Orthodox Church. He soon will be returned. But I could not not to subject him to punishment, as he openly refused to obey my command. " Czar Nicholas II "The collapse of the empire" by M.V. Rodzianko

· One empire was replaced with another one and young countries were established in 1991

· Did the young countries form understanding “We are now independent”? Do You have a pathway to understand these processes?

To develop social activities of the town residents in addressing ecological issues

- Materials for all activities performed by the town administration in the area of ecology available on the town web sites*
- For centuries environmental management of inhabitants of villages and towns didn't disturb the balance of nature.*
- Fermata is proposing to consider the following aspects:*
 - 1. Find out what types of plants, and how they are used by the household residents*
 - 2. Determine whether the collection of "forest products" for personal use harm the nature?*
 - 3. Find out what kind of animals live in the surrounding woods, which animals people happen to meet, are there any special relationship with certain animals (negative or positive)*
 - 4. Identify folklore-ethnographic material about local forest*
 - 5. Determine an attitude of local residents to the growing pressure on forest recreation from the visitors*
 - 6. Establish what rules of nature people are considered safe for the forest*

To highlight daily schedule of the town administration representatives

- *As an element of transparency and evaluation of effectiveness / busyness*
- *As an indicator of the development of a socio-cultural system in the town /city*
- *As a factor of readiness for participation in the Investment and Cultural Clubs*

· *Fermata's proposal:*

To develop routes for inspections. This will provide an opportunity to inspect what task every administration representative is working on. In United Kingdom it gave an opportunity for every resident to attend meetings of:

- *Library director*
- *Town manager*
- *Superintendent of public schools*

to participate, to offer his / her suggestions

*The current economic situation requires strategic planning for town
administration leaders based on time table charts with map of busyness for
all town employees*

Fermata's proposal:

- *Introduce time table charts and map of busyness to all town employees*
- *Activities of the town manager are formed into the schedule by a secretary
Other town employees make their schedule on their own*
 - *Multi-year evaluation of the individual schedules. This provides a
capability for residents to form the following main criteria for active
participation in the election campaign:*
 - *Busyness*
 - *Number of employees*
 - *Qualification of employees*
 - *This provides an opportunity to instruct the proposed candidates and
add an element of transparency in their future activities*

Did the young countries form understanding “We are now independent”?

Do You have a pathway to understand these processes?

(Ref. News Card No. 630 dated October 06, 2012)

FAF's proposal:

· To invite five presidents from major Russian companies:

how are they going to address issues in young countries through their structures:

- Education*
- Culture*
- Ecology*

· Building business structures in a country and building business structures in the country that is environmentally safe, “only an environmentally safe country may be attractive for investments” (FAF's Memorandum dated Oct. 27, 2010), are two different things. Understanding of civilization connects all countries into the whole

· To organize an international conference “Ecological Problems of the Collapsed Empire and How They Have to be Addressed” in Avon, Connecticut, USA in March of 2013

Problems of management of city social space in the conditions of modern transformation of the society: regional aspect

New processes in the sphere of economy and management caused a number of positive tendencies: reorganization of urban design and, as a result, high-quality change of architecture, cities - their personification; variety, reorientation to the interests and taste of the specific consumer, appeal to historical and stylistic and common cultural traditions of the regions etc.

FAF's proposal:

- To breakdown large cities into small districts to introduce competitiveness. City of Hartford and City of New Haven can be considered as candidates for this concept (elements for strategic planning for the State of Connecticut)*
- The urgency of this proposal is defined by a new stage in development of sociology of the city*
